

Test. Validate. Transform. With Confidence.

The Neodustria Pilot Program helps industrial leaders test AI use cases, prove measurable impact, and build the foundation for enterprise-scale adoption.

Fast to Start
2–4 weeks to launch

Low Risk
Proven, secure framework

Measurable ROI
Clear success metrics

Built for Scale
From pilot to production

WHY A PILOT WITH NEODUSTRIA?

Real Impact. Real Fast.

We combine deep industrial expertise with cutting-edge AI to deliver outcomes that matter—before you commit to a full-scale transformation.

Prove Value Quickly
Validate use cases and demonstrate ROI in weeks, not years.

De-Risk Your Investment
Test in a controlled environment with no long-term commitment.

Tailored to Your Needs
Focused on your data, processes, and operational priorities.

Expert Guidance
Work side-by-side with our AI and domain experts.

Scalable Path Forward
Pilot learnings create a clear roadmap for enterprise adoption.

Secure by Design
Built with industrial-grade security and compliance from day one.

WHAT YOU CAN EXPECT

01

Discover

Align on goals, challenges, and success metrics.

02

Design

Define the use case, data needs, and pilot scope.

03

Deliver

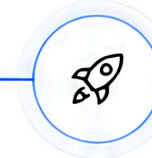

Build and test the solution in a secure pilot environment.

04

Measure

Evaluate results against KPI and quantify impact.

05

Scale

Refine and expand with a clear roadmap to production.

ABOUT NEODUSTRIA

Engineering the Future of Industrial Intelligence.

Neodustria is an industrial AI platform built in Europe for industries that demand performance, reliability, and trust. We combine physics-aware AI, engineering rigor, and sovereign infrastructure to solve complex industrial challenges—responsibly.

LET'S BUILD WHAT'S NEXT

Headquarters

 Innovation Park, Place des Sciences 2
2822 Courroux, [Switzerland](#)

Sovereign by Design
European data stays in Europe.

Trusted & Secure
Compliant, secure, and future-proof.

Built for Impact
Delivering measurable outcomes at scale.

European Excellence
Engineered for industries, with European values.
